

Afro-wig

In this site and the book (Fusen Chakuchaku), twelve 260s are used to make afro-wig. But thirteen 260s! afro-wig is far easy so that you never be at a loss.

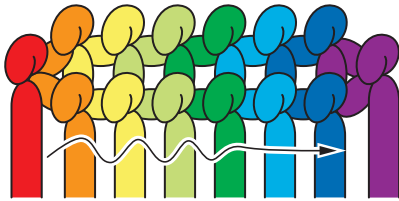

- ① Inflate thirteen 260s leaving 15cm uninflated.

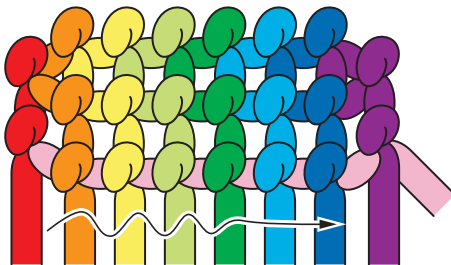

- ② Make a 7cm loop twist by passing the knot through on eight 260s. Connect them with 6cm bubbles. This is the first line.

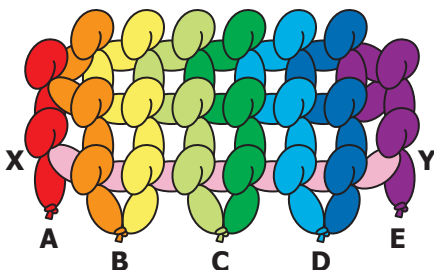

- ③ Turn the line left to right. Weave the second line.

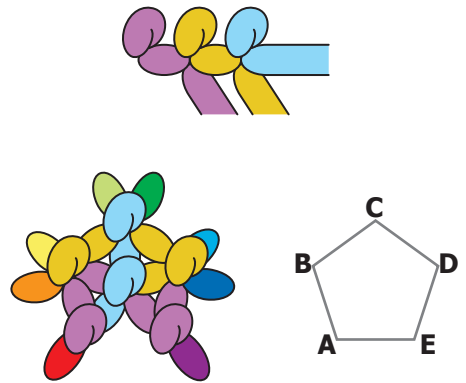

- ④ On the red 260, twist a 6cm bubble and a 7cm loop twist. Around this loop twist, wrap the knot of pink 260. Then make the third line.

- ⑤ To make a pentagon on next step, trim the excess leaving 7cm bubbles.

- ⑥ Make a pentagon structure on the back of the head. Use this three 260s.

- ⑦ Finally patch up by last 260.
